

Dear _____,

The rapid growth of the **wind industry** holds great promise for the **world's energy future** and green careers of today and tomorrow. But historically, women have been under-represented in the wind industry. This fact affects not only women in our field or contemplating it, but also the wind industry as a whole. How will **wind energy** reap the full advantage of women's talents, energy, and ideas?

Women of Wind Energy, or WoWE (pronounced WOW-ee) was founded in 2005 to ensure that women can play a full, productive role in the development of wind power.

We are very excited to have this opportunity to enhance our Alaskan women in these fields with mentoring programs, lil' WoWE programs, and more. There are several ways you can help support this organization and to become more involved:

1. FINANCE SUPPORTER MEMBERSHIP:
 - a. Financial assistance—will finance mentoring programs, youth training, sponsorship programs, educational field trips and more.
 - GOLD MEMBER - \$1,000.00 or more
 - BRONZE MEMBER: \$999.00 to \$500.00
 - SILVER MEMBER: \$500.00 or under
2. GREEN SUPPORTER MEMBERSHIP:
 - a. Gift in kind—if you have a service that you can provide (such as advertising jointly, member benefits, equipment support, etc.)

As a sponsor, you will receive a AKWoWE Supporter Certificate, AKWoWE supporter bumper sticker, advertising on AKWoWe website, and much more.

If you would like to learn more about the Alaskan Chapter of Women of Wind Industries, you may visit the website at: www.akwowe.com

Thank you, and I look forward to a wonderful partnership!

WoWE Member,
